**BECOME  
AN EXHIBITOR  
NOW!**

## WELCOME TO THE PREMIERE OF FUEL & GAS LOGISTICS AT LEIPZIGER MESSE

The expo PetroTrans trade fair was successfully held in Kassel up until 2018. Following cancellations in 2020 and 2022 due to the pandemic, Leipziger Messe is bringing **Fuel & Gas Logistics** back as an **international trade fair for the logistics of energy sources, lubricants and industrial gases**. The trade fair will be held from 22–24 October 2024 at Leipziger Messe.

The trade fair's new name and new look also go hand in hand with a conceptual update. **Fuel & Gas Logistics** is embracing the latest developments in the energy and fuels market, expanding its range of products and responding to the growing role that renewable and synthetic fuels and energy sources are playing as a result of the energy transition.

The following are some of the most important distinguishing features of this international trade fair:

- ♦ the trade fair encompasses the entire logistics chain for fossil, renewable and synthetic energy sources, as well as for lubricants and industrial gases
- ♦ solid, liquid and gas materials are all represented
- ♦ topics incorporate multiple modes of transport, i.e., road, rail and waterways

With its interesting economic environment, its attractive city centre and its modern exhibition centre, Leipzig offers the perfect environment for a successful trade fair. Bring your products, services and expertise and join the industry when it meets in Leipzig!

## PRODUCTS AND SERVICES

- ♦ Road transport equipment
- ♦ Rail transport equipment
- ♦ Transport containers and mobile tank systems for all modes of transport
- ♦ Tank filling technology and accessories
- ♦ Handling and storage
- ♦ Servicing and maintenance
- ♦ Transport and logistics services for energy sources, lubricants and industrial gases
- ♦ IT – digitalisation – networking
- ♦ General safety, occupational safety and environment protection for the transport and logistics of energy sources, lubricants and industrial gases
- ♦ Industry-specific services

**THE TRADE FAIR DUO  
FUEL & GAS LOGISTICS AND**

**GGGS**

TRADE FAIR DANGEROUS GOODS //  
HAZARDOUS SUBSTANCES

## THE VISITORS

The following are just some of the industries and disciplines represented by the trade fair attendees you'll be able to meet in Leipzig to discuss business, share your experiences and network:

- ♦ petroleum, fuel and energy trading
- ♦ shipping companies, freight forwarders and other transport companies representing all modes of transportation
- ♦ handling and storage companies, fuel depot operators
- ♦ mineral oil industry (incl. refineries)
- ♦ petrol station operators
- ♦ manufacturers and retailers of industrial gases

- ♦ lubricant industry and trade
- ♦ bulk buyers and the processing industry (including the chemical and plastics processing industries, the automotive industry, construction businesses, airports)
- ♦ waste disposal businesses
- ♦ aid organisations, fire service and police
- ♦ safety officers working in dangerous goods and other areas
- ♦ testing organisations, engineering firms, technical experts and consulting firms
- ♦ authorities, associations and institutes
- ♦ research and development institutions

## THE CONFERENCE PROGRAMME

The highly varied conference programme in the exhibition hall and in the neighbouring Congress Center Leipzig provides a platform for a range of industry players to share information and experiences.

In addition to covering highly practical topics, the programme will also include discussions on the energy transition.

- ♦ Demonstrations and product presentations
- ♦ Lectures and discussion panels
- ♦ Professional events and seminars
- ♦ Energy policy discussions

Exhibitors can play an active role in the conference by contributing their own papers, presentations and customer events – it's a great way to increase your visibility.

**NETWORKING  
MADE EASY!**

## MEET US IN LEIPZIG

Leipzig is an attractive city with all kinds of art and culture, plentiful shopping opportunities and numerous green spaces. Leipzig's hotels, restaurants and bars are well-known and much-loved for their hospitality and good value. You can enjoy the city's flair and unique mix of past and present while you are visiting the Fuel & Gas Logistics.

Leipzig is one of the world's oldest trade fair cities, with a long tradition of trade, business contacts and informal exchange.

Located in the heart of Central Germany's dynamic economic region, Leipzig is now a major logistics hub, home to the car industry and a close neighbour to important chemical industry sites.

Our strengths lie in the modern exhibition centre with good transport connections and perfect logistics as well as comprehensive services. Its friendly and helpful staff look forward to **welcoming you!**

# GGG

TRADE FAIR DANGEROUS GOODS //  
HAZARDOUS SUBSTANCES

**BENEFIT  
FROM  
SYNERGIES!**

## THE NEW TRADE FAIR DUO

The **GGG – Trade Fair Dangerous Goods // Hazardous Substances** will be held at the same time as Fuel & Gas Logistics. Since 2017, the GGG has been the only European trade fair focusing on the transport, storage, intralogistics and safe handling of dangerous goods and hazardous substances. More information on this European industry get-together can be found at [www.ggs-messe.de/en](http://www.ggs-messe.de/en).

Combining these two trade fairs will offer exhibitors and visitors to Fuel & Gas Logistics many synergies and a great deal of added value.

With few exceptions, every transport or logistical process involving fuels, lubricants and industrial gases falls into the categories of dangerous goods transport or hazardous substances handling.

Both fairs encompass all modes of transport within the logistics chain and are geared toward an international audience – two more commonalities that will benefit Fuel & Gas Logistics.

**All tickets are valid for both trade fairs.**
